Technical Data Sheet

**STRUKTOL® SB 2080**

Antifoam agent (technical processing aid)

**Chemical Composition**

Derivates of natural fatty acids

**Properties**

Appearance: yellowish dispersion

Odour: aromatic

Density: 950 kg/m$^3$ at 20 °C

Viscosity: 150 mPa.s at 25 °C

Solidification point: about -10 °C

Toxicological behaviour: for details please see the currently valid material-safety-data-sheet

Ecological behaviour: for details please see the currently valid material-safety-data-sheet

Storage stability: at least 1 year at adequate storage

After longer storage separations could appear. In this case it is recommendable to stir the product before use.

The data given are typical values which are not intended for use in preparing specifications. For test methods refer to the corresponding supplement.
Recommendations for application

The most favourable dosage quantity and the best adding point for **STRUKTOL® SB 2080** depend on plant conditions and have to be found out by trials.
