Technical Data Sheet

**STRUKTOL® J 647**

Antifoam agent (technical processing aid)

**Chemical Composition**

Combination of polyglycol ethers of aliphatic alcohols

**Properties**

- **Appearance**: medium viscous liquid
- **Odour**: neutral
- **Density**: 1015 kg/m$^3$ at 20 °C
- **Viscosity**: 500 mPa.s at 25 °C
- **Toxicological behaviour**: for details please see the currently valid material-safety-data-sheet
- **Ecological behaviour**: for details please see the currently valid material-safety-data-sheet
- **Storage Stability**: at least 24 months at adequate storage

The data given are typical values which are not intended for use in preparing specifications. For test methods refer to the corresponding supplement.
Recommendations for application

The most favourable dosage quantity and the best adding point for STRUKTOL® J 647 depend on plant conditions and have to be found out by trials.

STRUKTOL® J 647 should be used as delivered, that means undiluted.
