Technical Data Sheet

STRUKTOL® SB 2121
Antifoam agent (technical processing aid)

Chemical Composition
Polyalkylene glycols

Properties
Appearance  colourless liquid
Odour        neutral
Density      1020 kg/m³ at 20 °C
Viscosity    465 mPa.s at 25 °C
Flash point  > 100 °C
Solidification Point - 21°C

Toxicological behaviour for details please see the currently valid material-safety-data-sheet

Ecological behaviour for details please see the currently valid material-safety-data-sheet

Storage stability at least 1 year at adequate storage

The data given are typical values which are not intended for use in preparing specifications. For test methods refer to the corresponding supplement.
Recommendations for application

The most favourable dosage quantity and the best adding point for STRUKTOL® SB 2121 depend on plant conditions and have to be found out by trials.

The suggestions for application and usage of our products as well as possible proposed formulations are meant to advise only to the best of our knowledge. This information is without obligation and does not release customers from their own testings to ensure suitability for intended processes and use. Liability is only accepted in case of intention or gross negligence. Liability for any defects caused by minor negligence are not accepted. Each producer is responsible and liable to observe legislation and patent rights of third parties.
