Technical Data Sheet

STRUKTOL® SB 2228

Antifoam agent (technical processing aid)

Chemical Composition

Polyalkylene glycols

Properties

Appearance light liquid
Odour neutral
Density 1010 kg/m³ at 20 °C
Viscosity 310 mPa.s at 25 °C

Toxicological behaviour for details please see the currently valid material-safety-data-sheet

Ecological behaviour for details please see the currently valid material-safety-data-sheet

Storage Stability at least 2 years at adequate storage

The data given are typical values which are not intended for use in preparing specifications. For test methods refer to the corresponding supplement.

Recommendations for application

The most favourable dosage quantity and the best adding point for STRUKTOL® SB 2228 depend on plant conditions and have to be found out by trials.

STRUKTOL® SB 2228 must be used as delivered, that means undiluted.

The suggestions for application and usage of our products as well as possible proposed formulations are meant to advise only to the best of our knowledge. This information is without obligation and does not release customers from their own testings to ensure suitability for intended processes and use. Liability is only accepted in case of intention or gross negligence. Liability for any defects caused by minor negligence are not accepted. Each producer is responsible and liable to observe legislation and patent rights of third parties.
